Approved: March 2006

LOSS OR THEFT OF PERSONAL PROPERTY ON CAMPUS

Sullivan County Community College does not assume responsibility for theft or loss for any reason of student and employees' personal belongings that may be brought on campus. The College does not replace lost possessions or compensate students or employees for such losses. If a student or employee's personal belongings go missing on campus, they can check with the Office of Public Safety.

If you bring personal property, such as bicycles, automobiles, audio-visual equipment, computers and computer related equipment, cameras, or other items to campus property, such as parking lots, offices, classrooms, or other college rooms and buildings, please make your own arrangements for their security.

Often students or students' families and employees have homeowner's insurance policies that provide some coverage for loss or theft, and students and employees are well advised to know their coverage in case of loss.
